

The Anshu Appreciation Society

Global Headquarters, Isle of Anshu, Pacific Ocean

To: President Cantlon
From: The Anshu Celebration Council
Classification: TOP SECRET. Anshu must not learn the contents of this message, in order that we may better honour His name.

Dear Madam President,

As you would undoubtedly know, the Anshu Appreciation Society has moved from strength to strength in the relatively short period since it was established. With the blessing of the divine Wijeyeratne, and the dedicated work of His disciples, we have grown from little more than an idea in the mind of Alfred The Founder to a fully-fledged international organisation. We have moved into merchandise production, with a range of popular T-shirts. Plans are also well underway for the development of our crown jewel, Anshu Land, to provide a focal destination for worshippers from across the globe, where they may share in His glory and learn more of His life and teachings.

To highlight these successes, the Anshu Celebration Council, which is tasked with increasing the visibility of the Society within the general public, is seeking your approval for a festival of grandly epic proportions: Anshu Appreciation Day.

This day will be a salute to all things Anshu. The scheduled date is February 6, 2009; a date provided by none other than our Lord Himself, when he foretold the celebration in a divine prophesy cunningly disguised as an email earlier this year:

★ Anshu De Silva Wijeyeratne to me, angelaha, jtan2772, nathanielware, bec.beard, law.charlie [show details](#) Feb 6 [Reply to all](#) ▼
when i checked my email and saw 18 new messages i was thinking that 2day was anshu appreciation day or something... oh well i can but dream

We intend this to be a global celebration and have already scheduled for one of the undersigned to be present in the United States on the day, in order to better promote it across the seas. The focal point of festivities will be in Anshu's current holy residence, Sydney. It is likely that a repeat festival will be staged in late February when all members of the Anshu Celebration Council have returned to Australia.

Our intended activities include listening to Rammstein, speaking German, and playing ice hockey (in climates where this is inappropriate, roller hockey may be a viable substitute). You may also wish to give a public oration on how worship of Anshu, and the presidency of this society, has brought lasting fulfilment to your life. We hope for your support in this endeavour and are sure it will be a success.

Yours in Anshuhood,

Michael J. West

Rebecca J. Beard

Directors, The Anshu Celebration Council
